MEMORIE DELLA SOCIETÀ ASTRONOMICA ITALIANA

Supplements Vol. n.21 2012

# GRBs as probes

from the progenitors environment to the high redshift Universe

*Como, May 16-20, 2011*

*editors:* S. Campana, P. D'Avanzo, A. Melandri

# TABLE OF CONTENTS

## Session IV: A theoretical perspective on the high redshift Universe

## Session V: Chemical evolution of the Universe

## Session VI: GRB host galaxies

## Session VII: Dust properties as probed by GRBs

## Session VIII: GRBs as messengers

## Session IX: Instruments and missions for GRB studies

## Special Session: The Christmas burst GRB 101225A

## Posters
