MEMORIE DELLA SOCIETÀ ASTRONOMICA ITALIANA

Vol.86 n.2 2015

Stellar Populations 55 years after the Vatican conference

Roma, July 2 - 4, 2012

editors: A. Omizzolo, M. Fabrizio, G. Bono

TABLE OF CONTENTS

Index 145

Foreword 150

List of participants 156

The Milky Way

C. Chiosi and E. Merlin
Formation and evolution of early-type galaxies 162

B. Barbuy, S. Ortolani and E. Bica
The Galactic bulge 182

N. Matsunaga
Cepheids and stellar populations in the Galactic bulge 186

Stellar variability

M. Marconi
Variables as stellar tracers and distance indicators 190

G. Fiorentino
Variable stars in dwarf galaxies: key tools to constrain the stellar population 195

A. Kunder, M. Salaris, S. Cassisi, R. de Propris, A. Walker, P. B. Stetson, M. Catelan and P. Amigo
Theoretical modeling of the RR Lyrae variables in NGC1851 199

J. Alonso-García, M. Catelan, P. Amigo, C. Cortés, C. A. Kuehn, F. Grundahl, G. López, R. Salinas, H. A. Smith, P. B. Stetson, A. V. Sweigart, A. A. R. Valcarce, M. Zoccali
Disentangling multiple stellar populations in globular clusters using the Strömgren system 203

C. Cacciari, L. Pasquini, E. Valenti, H.U. Käufl, P. Mauas
Helium abundance difference within globular clusters: NGC2808 207

B. Dias, I. Saviane, B. Barbuy, E. Held, G. Da Costa, S. Ortolani
Metallicities and alpha-to-iron ratios in globular clusters stars in a homogeneous scale - Search for Multiple Populations 211

E. P. Lagioia, A. P. Milone, G. Bono, P. B. Stetson, A. Aparicio, R. Buonanno, A. Calamida, M. Dall'ora, I. Ferraro, R. Gilmozzi, G. Iannicola, N. Matsunaga, M. Monelli, P. G. Prada Moroni and A. Walker
The globular cluster NGC6528 the ferrous side of the Galactic Bulge 215

M. Marengo
Mass loss in advanced evolutionary phases 222

P. G. Prada Moroni, G. Valle, M. Dell'Omodarme, S. Degl'Innocenti
Cumulative propagation of physical uncertainties in stellar models 227

Dwarf galaxies

F. Bresolin
Metallicity gradients in nearby galaxies 231

M. Fabrizio, A. Pietrinferni, G. Bono, P.B. Stetson, A.R. Walker, R. Buonanno, S. Cassisi, I. Ferraro, G. Iannicola, M. Monelli, M. Nonino, L. Pulone and F.Thevénin
On the He burning phases of the Carina dSph 236

A. del Pino Molina, S. L. Hidalgo, A. Aparicio, C. Gallart, R. Carrera, M. Monelli.
Looking for the traces of the early Universe in the Fornax dSph galaxy 241

I. Musella, V. Ripepi, G. Clementini, M. Marconi, M. Dall'Ora, M.I. Moretti, A. Garofalo, F. Cusano, G. Coppola and L. Di Fabrizio
Variable stars and stellar populations in the new Milky Way ultra-faint dwarfs 245

M. Cignoni, G. Clementini, R. Contreras Ramos, L. Federici, V. Ripepi, M. Marconi, M. Tosi and I. Musella
A long history of star formation in a low mass stellar system, Leo T 249

A. Calamida, S. K. Randall, M. Monelli, G. Bono, R. Buonanno, G. Strampelli, M. Catelan, V. Van Grootel, M. L. Alonso, P. B. Stetson and R. F. Stellingwerf
The soundtrack of RR Lyrae in ω Cen at high-frequency 253

Magellanic clouds

I. Soszyński, A. Udalski , M. K. Szymański , M. Kubiak, G. Pietrzyński, Ł. Wyrzykowski, K. Ulaczyk, R. Poleski, S. Kozłowski, P. Pietrukowicz and J. Skowron
Variable stars from the OGLE Survey 257

L. Inno, G. Bono, N. Matsunaga, M. Romaniello, F. Primas, R. Buonanno, F. Caputo, K. Genovali, C. D. Laney, M. Marconi and A. Pietrinferni
On the relative distance of Magellanic Clouds using Cepheid NlR and Optical-NIR PW relations 262

M. Van der Swaelmen, V. Hill and F. Primas
Elemental abundances in RGB stars of the Large Magellanic Cloud 268

R. Sordo, A. Vallenari and R. Tantalo
Gaia & SSP libraries for Local Universe study 272

M31 and beyond

A. M. N. Ferguson
Unravelling the histories of M31 and M33 276

G. Coppola, F. Cusano, G. Clementini, V. Ripepi, I. Musella, L. Federici, M. Marconi, L. Di Fabrizio, A. Ferguson, M. Tosi, F. Fusi Pecci, R. Contreras, M. Dall'Ora and A. Garofalo
Ultra-faint dwarfs and dwarf-spheroidal galaxies: the Andromeda satellites 281

M. Monelli
Isolated galaxies in the Local Group 285

S. L. Hidalgo and the LCID group.
Footprints of the early Universe in the SFHs of dwarf galaxies 290

F. Annibali, M. Cignoni, M. Tosi, R. P. van der Marel, A. Aloisi and G. Fiorentino
The star formation history of the BCD I Zw 18 294

E.J. Bernard, A.M.N. Ferguson, M.K. Barker, M.J. Irwin, P. Jablonka and N. Arimoto
A wide-field study of HolmbergII and evidence for ram pressure stripping 298

D. Crnojević, E.K. Grebel, A.M.N. Ferguson, A. Koch, M. Rejkuba, G. Da Costa, H. Jerjen, M.J. Irwin, E.J. Bernard, N. Arimoto, P. Jablonka, C. Kobayashi
Galaxy evolution through resolved stellar populations in the nearby Centaurus A group 302

Nearby cosmology

M. Salaris
Uncertainties in determining the evolutionary status of unresolved old populations 306

E. L. Łokas, K. Kowalczyk and S. Kazantzidis
Stellar populations in tidally stirred dwarf galaxies 312

B. Davies, R. P. Kudritzki, B. Plez, M. Bergemann, Z. Gazak and C. Evans
Red supergiants as cosmic abundance probes 317

S. Pasetto, G. Bertelli, E. K. Grebel, C. Chiosi and Y. Fujita
Dissipative phenomena in Local Group dwarf galaxies evolution 321

C. Chiosi
Concluding remarks 325

Poster session

D. Crnojević, A. M. N. Ferguson and M. J. Irwin
A WFCAM near-infrared survey of M31 dwarf elliptical satellites 330

C.B. Pereira, E.G. Jilinski, N.A. Drake, D.B. de Castro, V.G. Ortega, C. Chavero, F. Roig
Abundance and kinematic analysis of the CH star CD-62°1346. The first hypervelocity red giant? 332

P. Drazinos, E. Kontizas, A. Karampelas, M. Kontizas, A. Dapergolas and I. Bellas-Velidis
Star forming regions with indication of hierarchical structure in a sample of spiral galaxies 334

F. Fusco, R. Buonanno, G. Bono, S. Cassisi, M. Monelli, A. Pietrinferni, S. L. Hidalgo and A. Aparicio
The Local Group Dwarf Irregular Galaxy NGC 6822: new insight on its star formation history 336

A. Garofalo, F. Cusano, G. Clementini, V. Ripepi, L. Federici, G. Beccari, C. Cacciari, R. Contreras, G. Coppola, F. Fusi Pecci, M. Marconi, I. Musella and M. Tosi
Stellar archaeology in the M31 halo: variable stars and stellar populations in the And XIX dwarf spheroidal galaxy 338

K. Genovali, M. Romaniello, B. Lemasle, N. Matsunaga, G. Bono, F. Primas, R. Buonanno, and F. Thévenin
Metallicity estimates of Galactic Cepheids in the Inner Disk 340

C. Guédé, Y. Lebreton, C. Babusiaux and M. Haywood
Stellar age-dating for different Gaia simulated catalogs 342

N. Kaltcheva and V. Golev
Improved distances and structure of several Galactic star-forming fields 344

M. Mapelli and A. Bressan
Young star cluster evolution and metallicity 346

B. Pila-Díez, J.T.A. de Jong, K. Kuijken and H. Hoekstra
Stellar populations in the Sagittarius stream 348

N. Podorvanyuk, I. Chilingarian and I. Katkov
The new technique for the determination of the stellar initial mass function of unresolved stellar populations 350

A. F. ,Punanova, V. V. ,Krushinsky, A. V. ,Loktin, A. Y. ,Burdanov, A. A. ,Popov, E. A. ,Avvakumova and I S. Zalozhnih
CCD BVRI photometry of the open clusters NGC 7142 and NGC 2281 352

O. Sholukhova, D. Bizyaev, S. Fabrika, A. Sarkisian, V. Malanushenko and A. Valeev
New Luminous Blue Variables in M31 354

E. Tognelli, S. Degl'Innocenti, P.G. Prada Moroni
^{7}*Li in young open clusters and binary systems* 356

G. Valle, E. Tognelli, M. Dell'Omodarme, S. Degl'Innocenti and P.G. Prada Moroni
The updated Pisa evolutionary model database 358

J. Veljanoski, A.M.N. Ferguson, M. Irwin, D. Mackey, A. Huxor, P. Côté and E. Bernard
Kinematic analysis of the M31 halo globular clusters 360

R. Ženovienė, G. Tautvaišienė, B. Nordström and E. Stonkutė
Chemical analysis of a new kinematically identified stellar group 362
